

## **Growth Statement from Ovilla Mayor Richard Dormier**

Via email October 22, 2021

- Ovilla grows very slowly (due mostly to our low density with larger lots) than most areas around us.
- As a result, this past year we had one new residential building permit issued in the City.
- Most of our growth in the past 10 years has been in the Midlothian School District.
- We do have a couple of new developments coming on line in the Red Oak ISD area of our City and I expect to see around 30 to 40 houses built in your area each of the next 4 to 5 years.
