

A/V Production

About the Program

A/V Production is a 4-year pathway. Red Oak High School A/V students are given the opportunity to learn broadcast television practices in the industry. Students are taught the pre-production, production, and post-production process in order to master the necessary skills to produce programming for a specified production. In addition, they are able to work in a fully equipped production facility.

Upon completing this program, students are able to pursue additional education through a community college, university, or seek entry-level employment in the broadcast industry.
