

Automotive Technology

About the Program

Automotive Technology is a 4-year pathway. Red Oak High School Automotive Technology students have the unique opportunity to learn in a facility with current technologies, an actual automotive shop that also provides services for clientele. Students will become skilled in using quality tools and equipment. Classes are taught dual credit through the automotive program with TSTC (Texas State Technical College) in Waco, TX. This means you will earn college credit toward an automotive education while still in high school.

Students in the Automotive Technology program acquire many skills used in today's automotive repair businesses:

- Engine repair
- Tire repair
- Oil change
- Tune ups
- Electrical
- Alignments
- Tire balance/ rotation
- Brake repair
- Vehicle computer analysis

Red Oak High School's Automotive program continues its reputation among area schools, businesses, and colleges, of setting a standard of quality and excellence.
