Demographics

Demographics Summary

Wooden Elementary currently serves students from K to 5th grade. Wooden Elementary ended the 2018-2019 school year with 540 students enrolled. Wooden Elementary is comprised of the following Ethnic Distribution:

African American: 6.6%

Hispanic: 52.6%

White: 36.6%

American Indian: .7%

Asian: .4%

Two of More Races: 3.1%

English Language Learners: 30.4%

At-Risk: 47%

Mobility Rate: 17.7%

Demographics Strengths

Our attendance rate has consistently been above 95%.

Problem Statement 1: As our school continues to become more and more diverse, meeting the needs of all students will continue to be our laser focus.

Student Academic Achievement

Student Academic Achievement Summary

Wooden Elementary is committed to providing a safe and supportive learning environment for each of our students every day of the school year. The use of data helps teachers collaborate in Professional Learning Communities (PLC) to design quality instruction based on the needs of individual students. Our goal is to know where students are performing and to provide the appropriate level of challenge to move them to their highest potential. While academic performance is a top priority, so is the assurance that we are providing a safe and respectful learning environment for our students and staff. Lessons based on the Graduate Profile provide opportunities to allow our children to be well-rounded and focus on leading a healthy lifestyle.

School Processes & Programs

School Processes & Programs Summary

Wooden Elementary uses multiple resources to help provide focus for curriculum, instruction, and assessment. The TEKS Resource System's scope and sequence and curriculum based assessments were utilized as a guide to providing and promoting critical thinking and problem solving skills, communication, creativity, and collaboration. Each week, grade level PLCs met for intensive data analysis and planning sessions to review the skills that had been taught, the skills that would be coming up in the next weeks, and to map out strategies and activities for reteaching to fill in the gap.

For each content area, assessment plays a vital role in driving instruction and making decisions. Wooden Elementary is committed to provide opportunities for students to interact collaboratively, with hands-on activities, performance based assessments, open-ended questions and responses, and promoting the 21st Century Skills to ensure mastery. Students are encouraged and allowed to demonstrate their learning through authentic assessments, including project-based learning, student-created products, and presentations (group and individual). We utilize TPRI, MAP Assessment, Stem Scopes, TEKS Resource System, and campus/district benchmarks for formal assessments in kindergarten through 2nd grade. In addition to these assessments, we also utilize STAAR released items and Fountas and Pinnell LLI Resources for grades 3 through 5. All special courses and programs such as special education, dyslexia, ELL, fine arts, and physical education promote and provide support for the standard of assessment utilized by our campus and district. Our ELL students are also assessed formally each year by the Texas English Language Proficiency Assessment System (TELPAS). All assessment data, whether formal or informal, is disaggregated, analyzed, and fine-tuned to drive instructional needs.

Grade level PLCs are held with campus administrators and instructional coach. The PLCs focus is on upcoming lessons, data review, and strategic planning. Grade levels have a daily common planning and focused intervention time. Formal planning and data meetings occur within a week after a formal assessment has been given.

Student progress is monitored through informal and formal assessments, along with focused tutorials and interventions. The RTI committee has ongoing meetings, after school, to provide support and academic strategies for teachers to utilize with identified students.

All staff, professional and para-professional, have many opportunities throughout the school year and summer, to attend professional development sessions, on and off campus, to enhance the teaching and learning environment for our students, and addressing the needs of our campus as identified in the plan.

School Processes & Programs Strengths

- The district curriculum bases assessments (CBA's) are created with teacher input. There is a process in place for teachers to review the assessments and give feedback as to what they feel should be changed.
- CBA's use multiple representations such as graphs, diagrams, tables, charts, etc. They also include higher order thinking and multi-step processing.
- Every week teachers hold a PLC meeting to discuss the data as a group, and develop a plan for intervention based on this data.

- Progress is tracked for students by using the Level Up campaign. The students set goals and track their progress from assessment to assessment.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: While we are working on our PLC process we need to continue to not only utilize data for intervention, but also for enrichment.

Perceptions

Perceptions Summary

The culture at Wooden Elementary is one of family and learning. The staff and students are committed to growth in each student. The school is a safe environment where students feel they can freely express themselves. Visits to the office for major discipline events are not frequent, and these events do not effect student achievement.

Perceptions Strengths

We have a full time police officer who helps contribute to the feeling of safety and security at school. Wooden has several after school clubs including the art club, music club, and chess club. Our attendance rate was above 96% for the 2017-2018 school year. Students and staff describe the culture at Wooden as family oriented. We have programs such as Wooden Warrior and Personal Best that promote and encourage positive student behaviors. Student leadership opportunities include Flag Patrol, Student Council, and Partner PE. Student discipline referrals are low. Discipline policies and procedures are both proactive and reactive. We use a program called R-time to reduce bullying and promote social skills.

- Safety drills are conducted monthly on our campus. They are orderly, well-coordinated, and well-supervised.
- Accountability is fast and accurate.
- Having an armed police officer on campus daily helps everyone feel more secure so that we can continue to educate our students without worry.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Wooden Elementary would like to bridge the connection between new families and continue to find innovative ways to increase parental and community involvement at the campus.

Title I Schoolwide Elements

ELEMENT 1. SWP COMPREHENSIVE NEEDS ASSESSMENT (CNA)

1.1: Comprehensive Needs Assessment

The Title I Program for Red Oak ISD is developed through a planning process that begins with a Comprehensive Needs Assessment (CNA). The District CNA reveals a need to focus on reading intervention at the 5 elementary campuses. Academic performance for all students in ROISD is analyzed in detail by student groups, including economically disadvantaged students; major ethnic and racial groups, students with disabilities and special needs, and LEP students. Campuses analyze results using the same groups and by individual student growth. This analysis helps personnel identify where needs are changing within our District and where efforts should be concentrated for the new school year.

Throughout the planning process the district administration and teachers identify student strengths, needs, and the interventions that are currently in place. They also assess the effectiveness of those interventions and make recommendations for revisions as needed. The planning process is used to guide program development, implementation, and evaluation. Campuses also follow this same process resulting in systemic planning that provides structure and a common vision for school improvement.

Campuses have identified the need for reading interventionists and paras to help with supplemental enrichment on their campuses. In addition, the district level needs assessment indicates that continuing with a Title I accountant one day per week will be necessary. Professional development for all Title I campuses is also an indicated need.

ELEMENT 2. SWP CAMPUS IMPROVEMENT PLAN (CIP)

2.1: Campus Improvement Plan developed with appropriate stakeholders

During May of 2015, campus principals attended support training at Region 10 and worked intensely on the CNA requirements for Title I campuses. Components were reviewed by principal as well as the entire training cadre, with additional input from contacts at campuses and at the district level. CNA data was taken back to the campuses after training and the review process continued with campus personnel. During July of 2016 a process for including a summary of the CNA and uses of those results was developed by the Title I campus principals and the State/Federal program director. This process is

available upon request.

Campuses review their plan and update it each year after consulting with staff, parents, and community members. The compacts and parent involvement policies are reviewed and updated annually in the fall. All programs are reviewed when making decisions about the need for supplemental materials and instructions. General budget, compensatory programs, other Title programs, CTE, nutrition programs, and violence prevention programs (to name a few) are considered as part of the planning process.

2.2: Regular monitoring and revision

The CIP is a living document that is updated each time a CNA or review is conducted and changes are needed to meet the needs of our students.

2.3: Available to parents and community in an understandable format and language

The CIP is available to our parents and community members on the campus and district websites. Printed copies are available to stakeholders upon request to the campus or district office. The CIP is currently available in English, and translators are available if a parent would like to review it in Spanish.

2.4: Opportunities for all children to meet State standards

All students are held to rigorous academic standards with students being met at their current level of performance and then provided instruction meant to challenge and engage them while learning. Through weekly PLC meetings the teachers and administration discuss how to work collaboratively to provide all students with either intervention or enrichment opportunities.

2.5: Increased learning time and well-rounded education

Time is included in the daily schedule to enrich and accelerate curriculum and increase the amount and quality of learning time. This time is 45 minutes daily for each grade level.

2.6: Address needs of all students, particularly at-risk

Interventions and programs have been developed to address the needs of our at-risk students, both academically and physically. We offer daily intervention through our Target Time with personnel such as our Reading Support Teacher who is paid with Title I funds. This time is build into our schedule for each

grade level for 45 minutes each day. Our family/community liaison has developed programs to insure our students have food and clothing, with references and assistance available when other needs arise.

ELEMENT 3. PARENT AND FAMILY ENGAGEMENT (PFE)

3.1: Develop and distribute Parent and Family Engagement Policy

Our Parent and Family Engagement Policy is available in English on each campus website. Printed copies are available in the campus office upon request, as is a translator.

3.2: Offer flexible number of parent involvement meetings

Parent involvement meetings are traditionally held in the evenings, but campuses also offer opportunities for families to be involved during the day through our volunteer program and field trips, as well as parent meetings. We offer at least one academic night, such as Math or Reading Night as well as other volunteer options throughout the year. We also work with our PTA to provide as many opportunities as possible. We also utilize a Title I Parent Survey in order to gain parent input on needs and wants for the school.
